Amkette Unveils FLASH Link - 'Instant SyncShare' device

-A revolutionary plug n play device for sharing and synchronizing email, internet music, videos and photographs across computers

[<< Go Back](#)

Thursday 11 November 2010

Tired of sharing and syncing data, files, folders and outlook from 'home' desktop to 'office' notebook to 'personal' netbook through pen drives and other devices? Try out the ultra handy Amkette Flash Link!! For the first time in India, **Amkette** brings to computer users an 'Instant SyncShare' device which enables seamless transfer, sharing and syncing between any two computers. With this device, Amkette has brought a whole new product category to India.

Key benefits of the FLASH Link:-

- Data Sharing – FLASH Link can be used to transfer any data from one computer to another. Large amounts of data can be copied in seconds.
- Internet Sharing – FLASH Link provides connectivity between computers enabling sharing of internet
- CD/DVD Sharing – FLASH Link provides access to CD/DVD drives of one computer on another. Sharing drives is perfect for netbook and laptop user
- Outlook/Folder Syncing – Set up folder and Outlook sync between computers. Users can easily maintain two copies of the same data for extra safety and portability

The feature rich device has something for everybody i.e. working professionals, Students, IT executives and entrepreneurs. It's a completely boot-free and installation-free multipurpose device used for transfer of any data from one computer to another. Movies, music and documents can now be transferred and shared at a blazing speed of 480 Mbps creating backup within seconds.

In addition, Flash links allows access to CD/DVD drives of one computer from another making it perfect for netbook users. The Folder and Outlook Sync options give users the advantage to sync emails instantly especially useful for busy professionals who are forever on the go and switching between their main computer and the travel netbook.

What's more!! One can even share internet on the go. Through its plug and play feature, user can gain access to a network/internet from another system, thus making computing a hassle free experience.

"We at Amkette have always focused on innovative use of technology to bring the latest and the trendiest convergence products to our customers," says **Mr Rajiv Bapna, Director, AMKETTE**. "Our 'Instant SyncShare' Flash Link takes innovation to next level. It is a must have device for all Laptop/Netbook users, the feature rich device makes computing an enjoyable experience," he added.

AMKETTE FLASH Link Specifications:

- High speed data transfer 480 Mbps
- Built in onboard memory of 256 MB
- Embedded user friendly powerful intuitive software
- Compatible with Windows XP/2000/Vista/NT/Win 7

Pricing and Availability-

FLASH Link is available now at selected retailers for INR 990 across India.
