

Bringing multimedia to the TV

BORED of watching all your downloaded media on the computer screen? Amkette's portable Flash TV multimedia player allows users to playback their downloaded movies, pictures and music from USB hard drives,

flash drives or memory cards directly to HD televisions. The Flash TV, which acts as a converter between the hard drive and the TV, offers high resolution video with a remote control. The tiny unit weighs just 45 gram and is available for Rs 2,995.
