Amkette adds wireless and keyboard mouse combo called the Black Diamond Desktop to its product portfolio. This sturdy desktop, with an embedded metal plate, is an ultimate fusion of wireless freedom and contemporary design. This stylish yet brawny combo delivers the convenience, comfort and elegance.

Amkette wireless keyboard and mouse combo provides higher stability and state of art technology for those who want to relax while working. "The most important innovation is that we have embedded a metal plate at the back of the keyboard, for extra stability.

This makes the keyboard slimmer yet solid. With its chic glossy finish, it looks like it has been delicately carved out of stone – A Black Diamond." said Mr. Rajiv Bapna, Director, Amkette . The keyboard feature concave shaped keys for low resistance typing and additionally has 9 multimedia keys for one touch access to internet & multimedia functions. Further, priced at Rs.1600, the Black Diamond comes with 3 years warranty.
