Amkette has launched a new wireless optical trackball keyboard that it claims is a first of its kind.

This wireless keyboard is compatible with Windows 2000/XP/Vista/7, MAC OS X and Linux. The 800-DPI optical trackball has a 360-degree navigation capability and acts just like a normal mouse. The dimensions of this sleek keyboard are; 365 mm x 156 mm x 22 mm, making it portable.

The new Power Saving Circuit switches the keyboard off automatically if not in use for four minutes. Full function Optical Trackball features a scroll wheel and two sets of right and left buttons for ease of operation while holding the keyboard in your hands. Ten Multimedia hotkeys are located at the top of the unit and pave the way for easy access to the Internet, Windows Media Player etc. This wireless keyboard can be a good option for multi-media enthusiasts with its Home Theatre PC settings.

Amkette's new integrated wireless trackball keyboard is available at an MRP of Rs. 2,995.
